

MELODY LINHART

BIO

Both French and English, she grew up in a family cultivating numerous talents like music, painting, writing ... Her Franco-British origins tinted with Czech and Italian culture make her a european artist. Her influences mingle jazz, pop, blues, rock and folk. In 2008, she creates the a'capella band **Ommm**, along with 4 other parisien singers. Together they produce 2 albums and evolve in France and abroad.

At the same time, Melody starts a more personal project under her own name. This pop-folk band could be compared to *Moriarty* or *Feist*. Voices, double bass, violin, guitars and percussions all tell and shape her songs. In 2015, Melody Linhart is selected by the CRY to be part « Yvelive ». This allows her to play in nice venues and open a few shows like Faada Freddy's, Pura Fe's, Irma's...

In February 2017, Melody Linhart releases her first single EVERYDAY with a music video directed by the British Jethro Massey. She records her first album NOW OR NEVER in *Mercredi 9 Studios* (Paris) produced by Benjamin Farley and Manuel Armstrong. This opus will be released next Spring 2017.
